

# ACTi Utility Suite

ACTi Utility Suite

- Search and manage devices on the network
- Creates snapshots periodically and sends to mail account or FTP site
- Playing and Converts archives to AVI files
- Converts RAW and MP4 file format
- Backup and Restore Application configuration
- Remote live view and PTZ via Internet Explorer
- Remote live view and PTZ via Pocket PC
- Camera trouble-shooting utility
- Application trouble-shooting utility

## POSITIONING

## BUNDLED APPLICATION

Management Utility	
IP Utility	Search, manage devices, upgrade firmware, backup configuration
Snapshot Utility	Creates snapshots periodically and sends to mail account or FTP site
Archive Player	Archive playing tool with playback panel and snapshot functions
Media Converter	Converts recorded archives to AVI files
Backup Wizard	Backup and restore configuration on NVR and Activator
Remote Utility	
Streaming Explorer	Web tool to manage devices remotely, comes with PTZ configuration tool
Mobile Explorer	Live view and PTZ functions on Microsoft Windows Mobile platform
Trouble-Shooting Utility	
Camera Doctor	Device diagnostic and firmware debug tool
AP Doctor	NVR and Activator diagnostic and application debug tool

# ACTi Utility Suite

## PRODUCT SPECIFICATION

### IP Utility

Search and locate devices	Search devices and display camera name, LAN, WAN IP Address, MAC address, device type and firmware version
Manage devices	Modify device name, LAN, WAN, Multicast IP Address
Duplicate Settings	Copy setting to other devices, including analog video setting, bit rate, frame mode, frame rate, serial port setting
Firmware Upgrade	1-to-many firmware upgrade

### Snapshot Utility

Create Snapshot	Generate JPEG files
Period	In seconds or follow firmware frame rate setting
Resolution Change	Resize to D1, CIF, QCIF
Add OSD	Add user-defined text and Date Time on the snapshot
Remote Monitoring	Web browser viewing
Mobile Monitoring	Mobile phone / PDA viewing
Mail	Sent by Mail
FTP	Send to FTP site

### Archive Player

Playback Operation	Playback video clip with speed control, forward / backward direction, seek position
Timecode Display	Display timecode on the video window
Display I-Frame from firmware	Display I-Frame file (MP4) sent out from firmware
Snapshot Function	Creates snapshot

### Media Converter

Format Conversion	Converts ACTi MPEG-4 RAW data format to AVI format
Add OSD	Add user-defined text and date time on the snapshot and converted AVI file
Batch File Conversion	Converts multiple files under one directory

### Backup Wizard

Backup and Restore Configuration	Backup and restore configuration from / to ACTi NVR and Activator
----------------------------------	---

### Streaming Explorer

Web Interface	Supports IE6 and IE7 web browser
PTZ Functions	Pan, Tilt, Zoom, Preset, IRIS, OSD
PTZ Protocols	CAM-6200, CAM-6500, CAM-6600 series; Pelco-P, Pelco-D, Lilin, Dynacolor, TOA, Eyeview, VideoTrec
OSD Functions	On screen menu to further configure the setting in speed dome or camera
Mouse PTZ	On-screen mouse PTZ with 8-direction pan-tilt control

### Mobile Explorer

Supported Devices	Microsoft Windows Mobile platform
Supported Profile	Up to D1@5 FPS with 1.5 Mbps or CIF@15 FPS with 1.5 Mbps
Live View	Live View on Mobile Explorer
PTZ Functions	Pan, Tilt, Zoom, Preset functions
Supported Protocol	CAM-6200, CAM-6500, CAM-6600 series, Pelco-P, Pelco-D, Dynacolor, Eyeview

### Camera Doctor

Device Configuration Reports	Reports device configuration
Network Environment Reports	Diagnoses network status and bandwidth information
PC Environment Reports	Diagnoses PC status and performance report
Firmware Debug Tool	Turn on/off firmware debug information, records debug information into report

### AP Doctor

Application Configuration Reports	Reports application configuration
Application Debug Tool	Turns on/off application debug information, records debug information into report
Auto-Repair Functions	Diagnoses and repair database records
Maintenance Functions	Check system configuration and do system cleanup
