

- Select on-site whether to use as an alarm or annunciator
- May be mounted on top, right, left or next to any door
- Detects both unauthorized exits and entries
- May be set for piercing 120dB warning horn or softer 85dB
- In exit alarm mode, can be set to sound for 30 seconds, 3 minutes or indefinitely (unless disarmed with key supplied)
- Available in red or green
- Unit is completely self-contained
- There is a 15 second arming delay mode to allow an authorized keyholder to exit; or immediate arming mode
- Exit delay allows unit to arm following authorized exits
- In annunciator mode, it announces door entry with a set of 5 beeps
- Easy to install, much less expensive than heavy horizontal bar type units, and practical for all emergency doors
- Highly visible "stop sign" design acts as a deterrent itself
- Optional AC transformer with plug-in connector available
- May be programmed for 15 second entry delay or immediate alarm

Exit Stopper - Model #STI 6400 (Stock No. 1000182)

With a wide range of new features, this latest version of our Exit Stopper can solve your problem of unauthorized exits and entries. Most important, it can be used as both an exit alarm to detect any person who is leaving through fire exits, and now also as an annunciator to inform you when someone has entered through the protected door. A wide choice of operational modes can be easily made on-site, 32 combinations in all. Exit Stopper is completely self-contained, and its "stop sign" design is a visual deterrent itself. Tired of people slipping in and out of that back door you have to leave unlocked to allow for an emergency exit in case of fire? Here is an inexpensive, practical, highly effective answer.

This completely self-contained system provides a highly effective, extremely versatile, inexpensive way to help prevent unauthorized use of fire/emergency doors. Exit Stopper comes complete with screws and anchors for mounting, and a keyed switch for easy deactivation. Offering 32 features including everything from variable volume settings

to selectable alarm duration and exit delay, Exit Stopper is one of the most versatile products of its kind. Installation is quick and easy, and all features are user selectable on-site and can be easily changed at any time (see operational matrix below). Available in red or green.
